APPS USING SERVICE

Service Credentials

Cloud Foundry provides your credentials in JSON format. The JSON snippet lists credentials, such as the API key and secret, as well as connection information for the service.

ADD CREDENTIALS

NAME	Credentials-1	DELETE
SERVICE CREDENTIALS		
<pre>{ "credentials": { "url": "https://gateway-a.watsonplatform.net/calls", "apikey": "987e669dad36152562e81300b9df88288ba14c49", "note": "It may take up to 5 minutes for this key to become active" } }</pre>
